# RapidILL

## Document Delivery Service Trial

**10/2** **Fri** ~ **10/28** **Wed**

The JAIST Library is considering introducing “RapidILL”, a document delivery service, as part of our efforts to improve library services. We are pleased to announce a trial of this service as outlined below. During the trial period, photocopy requests fulfilled through RapidILL will be provided **free of charge**.

### What is RapidILL?

- RapidILL is an interlibrary loan (ILL) service used by more than 750 institutions worldwide.
- Because documents are delivered electronically, copies of overseas journal articles and portions of foreign books can be obtained more quickly than through standard document delivery services.

### Trial Overview

#### Eligible Users

JAIST students, faculty members, staff, and researchers

#### Trial Period

**October 2 (Fri) to October 28 (Wed), 2026**

#### Eligible Materials

Overseas journal articles and book chapters

#### How to Request

Request through User Service of JAIST OPAC → "Photocopy Request/DDS". **Please be sure to select "RapidILL (Free)" as the payment type.**

#### Delivery Method

Copies will be provided in hard copy only.

### Notes

- Requests will be sent only to libraries participating in RapidILL.
- If no lending library can be found or if the request is declined, we will notify you accordingly. The request will not be transferred to the standard document delivery service.
